**10/718,591 Interview Agenda**

Applicants propose the following claim amendments:

1. (Currently Amended) A method for deploying at least one stored procedure to a device, the method comprising:
  - generating a data project and a device database within a solution;
  - associating the data project with the device database;
  - adding the at least one stored procedure to the data project, the at least one stored procedure comprising a precompiled set of one or more statements for accessing data in a database;
  - receiving a request to build the solution, and, responsive to the request:
    - automatically embedding each stored procedure in the data project into the device database;
    - automatically registering each stored procedure in the data project with the device database; and
    - deploying the device database with the at least one embedded stored procedure as a single unit to the device.
